

Planet **Sub**

Planet Sub

The Planet Sub has the same DNA as Elipson's Planet line: its exceptional design and uncompromising sound fidelity bear witness to its prestigious lineage.

Integrating a 20cm speaker alive with 200 watt amplification, this bass unit offers musical excellence and a sense of versatility so it's at home as part of your stereo setup and it's just as comfortable anchoring your home-cinema configuration.

Uniting elegance and performance, Planet Sub guarantees to fit in harmoniously with your Elipson spheres.
